THE WORKSHOP

Angela and Steve Minerich of High Country Builders have once again allowed us to use their workshop to build and paint.

If you are going out there, please call me 970.946.2240 before going. Lots of times I have to run into town to get supplies or something comes up that I have to go take care of.

To get to the workshop, go north past north City Market. At the next stoplight, turn right onto East Animas Drive and go past the Mild to Wild building. Up ahead you'll see a city trolley stop on your left. Just past that is a small road (Sunburst Lane) also on your left. Just a few feet up it splits. Take the right road. It goes up the hill and dead ends at the workshop. Park in the big flat area at the top, not by the house just below it.
